Welcome to the 20th World Congress of the International Economic Association in Medellin, Colombia. Our previous Congress was meant to be held in Bali, Indonesia in July 2020 – but alas the pandemic made an in-person meeting impossible and we had to hold the Congress virtually. It is great to have the World Congress in person again.

The IEA World Congress is one of the largest gatherings of its kind and brings economists from all over the world to discuss their research and policy issues of mutual concern and to address and debate the big economic and policy challenges of our time. This Congress' theme "World Economy at a Turning Point? Conflict, Fragmentation, and Divergence" reflects the unusual and difficult times we are in. More than at any time in recent memory, established practices in various domains of the economy – in trade, climate transition, public health, growth and development, technology, equity and social inclusion – are being reconsidered and reshaped against a new geopolitical context of rising tensions among major powers. We have a rich program of panels, keynote speakers, invited and contributed sessions that we hope will do justice to these challenges.

The IEA is a unique organization in that it represents the global economics profession in all its diversity. Since the last Congress, we are proud to have launched a number of new activities. We have recently launched the Women in Leadership in Economics (IEA-WE) initiative, with generous support from the Co-Impact and Open Society Foundations. The initiative will be featured in a special session of the Congress. We have convened a number of working groups on "World Economy", "Technology, Jobs, and Development", and "Dealing with Debt". And we are happy to welcome the following new members of the IEA to the Congress: African Economic Research Consortium, Centre for International Governance Innovation, East Asian Economic Association, Economic Research Forum, Economic Research Institute for ASEAN and East Asia, Economic Society of Singapore, Ethiopian Economics Association, International Association for Feminist Economics, Latin American Association of Environmental and Resource Economists Royal Economic Society, Scottish Economic Society, Sociedad de Economía de Chile, and Society for the Analysis of Government and Economics.

We are grateful to the members of the Program Committee for their tireless work in the selection of papers and organization of sessions. For their financial contributions, we thank the sponsors of the Congress: Cámara de Comercio de Medellín para Antioquia, Banco de la República de Colombia, Comfama, Nutresa, Astor, Procolombia, Proantioquia Bancolombia, Grupo Éxito, XM, Banco de Desarrollo de América Latina (CAF), Digeo, Postobón, Corfì Colombiana, FLAR, ISA, The World Bank, Celsia, Economic Research Institute for Asean and East Asia (ERIA), the Interamerican Development Bank, Ashmore, Protección, Promigas, and Global Seguros. Andrea Cavallo, the IEA's manager, has played a pivotal role throughout and it is no exaggeration to say that the Congress would not have been possible without her important work. Last but certainly not least, we are deeply thankful to Universidad EAFIT and César Tamayo and Claudia Restrepo Montoya who offered to host this Congress in Medellín and have been our partners in the organization of the event. It was a pleasure for us to work with all these collaborators.

The next World Congress is scheduled for 2026 when we look forward to welcoming you back when Elhanan Helpman will be taking over as President. We wish you an enjoyable and intellectually rewarding Congress.

Dani Rodrik
President

Elhanan Helpman
President-Elect and Congress Chair
Welcome

We are truly honored to welcome you to the 20th World Congress of the International Economic Association (IEA). On this unique occasion, Universidad EAFIT opens its doors to the over 700 international experts gathering at the Congress, proudly placing itself as a leading venue for the most important economic discussions.

This is the first time that Colombia hosts the IEA World Congress, and we are pleased to have some of the world's most renowned economists this year, including four Nobel Laureates: Michael Kremer, Eric Maskin, Robert Aumann, and Joseph Stiglitz. Many other leading economists such as Gita Gopinath, Nathan Nunn, Danny Quah, David Atkin, Eduardo Engel, Raj Chetty, Sergei Guriev, Jayati Ghosh, José A. Ocampo, Raquel Fernández, Ivan Wening, Hélène Rey, Andrew Mas-Colell and Carmen Reinhart, will, along with other participants, foster intense economic discussions amidst the considerable challenges facing the world economy.

We are happy to have you as our guests. We are confident that the academic work presented at the Congress, as well as the interaction with policymakers and participants from private and social organizations, will create the ideal setting for sharing a rich set of fresh economic ideas, and bridging policy-oriented applications.

We want to thank Dani Rodrik (president), Elhanan Helpman (president-elect), and the members of the Executive and Steering committees of the IEA, for inviting us to organize the 20th edition of the congress. We are also thankful to the members of the Program Committee for reviewing a large pool of submissions, and helping us craft a top-notch program of sessions. Additionally, our gratitude goes to the Executive and Local Organizing committees of the Congress that, with their advice and effort, made this possible. Thanks to all the administrative staff and students who helped us take care of every detail so we can be here today. Finally, a special mention to our partners and sponsors that, with their contribution and trust, supported us in hosting this world-class conference.

Welcome to Medellín, the city of the eternal spring, welcome to Universidad EAFIT, and welcome to IEA World Congress 2023.

Universidad EAFIT was founded in 1960 by a group of entrepreneurs from Medellín to educate suitable professionals about their responsibility to Colombia. EAFIT is a university that inspires the current generations to embark on a life project that maximizes their potential. It is an institution that conveys and generates knowledge, thus fulfilling its role as a teaching and research university.

Today, the University has five Schools – Arts and Humanities; Applied Sciences and Engineering; Finance, Economics, and Government; Business, and Law.

Located on the south side of Medellin, EAFIT welcomes each year over 13,000 students in undergraduate and graduate programs and works with organizations of all types to offer purpose-built executive programs and applied research projects with a sharp problem-solving approach. Designed by town planner Carlos Uribe, its 241,800 square meters campus received the prestigious “Lápiz de Acero” award.
COLOMBIA, THE HOST COUNTRY

Colombia offers unique and authentic travel experiences, magical and unforgettable experiences, tourists from all over the world are beginning to discover Colombia in its fullness, Colombia is well connected to the international community with over 900 flights per week, impressive mountains, beautiful villages, walls, castles, colonial squares and places inspired by flowers which are transformed into perfect settings full of magic realism.

LOCATION

Medellín, is the second-largest city in Colombia and the capital of the state of Antioquia, the home of colorful flowers and exquisite tropical fruits. It is surrounded by mountains with wonderful yearlong spring weather with an average temperature ranging from 18 to 28 Celsius (64 to 82 degrees Fahrenheit). Medellín has undergone a cultural, social, and economic transformation in recent years that led to this bustling metropolis being chosen, for example, as the host city for the World Urban Forum and the 4th World Bike Forum in 2014 and 2015, respectively. The Medellín metropolitan area, which comprises 10 municipalities located in the Aburra Valley, 15 currently home to roughly 3,800,000 people. This urban conglomerate in northwestern Colombia (nestled amid the Andes’ Cordillera Central range) hosts world-class events such as the Flower Festival, the international Poetry Festival, the Medellín Book and Culture Festival, Colombiamoda, and Colombiatex. The city is a permanent invitation to delight in the diverse local, national, and international cuisine; and exceptional hotels in three sectors
